## Discovery Together

Canada's Vision for Cancer Research

## Activated Populations

Every person in Canada understands that cancer research is about, for, and with them.

As the impact of research on cancer control grows, individuals become more activated and engaged.

As populations become activated, Canadian science becomes more powerful.

in Canada is part of
a bold movement
to push the frontiers of
cancer research and translate
all promising discoveries
into maximum health
and wellbeing.

## Living Innovation

Cancer research is at the heart of Canada's dynamic cancer control system.

## Intrepid Science

The Canadian approach to cancer research is leading the way.

As the science is emboldened, research is more readily recognized, integrated and implemented within the larger cancer control system.
