* As of February 1, 2017, the Canadian Cancer Society and the Canadian Breast Cancer Foundation merged operations. The data in this report reflects the investments made by these individual organizations prior to this merger.

For details on the methodology used for this report, please consult our report, *Investment in Research on Survivorship and Palliative and End-of-Life Care, 2005–2008*, at <http://www.ccra-acrc.ca>. A slide deck based on the results of this analysis is also available on our website under the Publications menu. Of note, several CCRA members collaborated to develop the recently released, *Pan-Canadian Framework for Palliative and End-of-Life Care Research*. This framework identifies several priority areas for research in this area and can also be accessed at our website.
